Graduated with an Engineer's Degree in Electrical and Computer Engineering . As an aspiring Electrical and Computer Engineering enthusiast, I thrive on solving complex problems and creating innovative solutions. My journey has been fueled by a passion for technology and a relentless curiosity to explore its depths. I'm committed to continuous learning, collaboration, and making a positive impact

Experience

Technical Assistant in Computer Engineering 2023–now

- WOLLO UNIVERSITY · Kombolcha finally I have gained practical expertise through Teaching Students, Skill: Java Programming: Developed robust applications. Database Management: Ensured efficient data handling. Microcontroller Programming: Interfaced hardware and software. Data Structures and Algorithms: Optimized code efficiency. VLSI Design: Contributed to integrated circuits. React Development: Created interactive web interfaces

ICT technician

- SHASHEMENE · Kokossa Get Relevant ,Real World Problem Identifying And Solve It In Works 2022-2023
- Internship for 4 months in Software development 2020

Education

Aksum University

- Bachelor of Science, In Electrical and Computer Engineering 2021
- GPA: 3.34

Azure Data Scientist Associate Certified 2024

2021–present

Full stack development Django and React,Git,Docker
Deep Learning Machine Learning Expert

Skills

- web design and Development
- Azure data scientist
- Mobile and Computer Maintenance
- Public 1 Driving Licence
- Linux friendly
- web penetration testing
- Problem-solving
- Creativity
- Time Management
- Eye for Detail
- Latex
